Pro Tips

Maximize Efficiency

- 1. Use Filters - Focus on "Not Contacted" to target fresh leads
- 2. Track Callbacks Filter by "Callback" status for follow-ups
- 3. Monitor Analytics Check conversion rates to optimize approach
- 4. Add Notes Document every interaction for future reference

Battery Optimization

- GPS only updates when you move >10 meters
- Updates every 30 seconds (configurable)
- Stop tracking when not actively canvassing
- Works offline data syncs when online

Mobile Tips

- Works perfectly on smartphones
- Touch-friendly marker sizes
- Responsive design for all screens
- Add to home screen for app-like experience

■ Mobile PWASetup

iOS (Safari)

- 1. Open http://localhost:3000 in Safari
- 2. Tap the Share button
- 3. Select "Add to Home Screen"
- 4. Tap "Add"

Android (Chrome)

- 1. Open http://localhost:3000 in Chrome
- 2. Tap the three-dot menu
- 3. Select "Add to Home screen"
- 4. Tap "Add"

© Common Workflows

Daily Canvassing

```
Morning:

1. Open Canvassing tab

2. Start GPS tracking

3. Filter by "Not Contacted"

4. Click markers to update status

5. Add notes after each interaction

Midday:

6. Review "Callback" properties

7. Check analytics dashboard

8. Adjust route based on performance

Evening:

9. Complete all callbacks

10. Review day's statistics

11. Stop GPS tracking

12. Plan next day's route
```

Follow-Up Workflow

```
1. Filter by "Callback" status
2. Sort by last visit date (oldest first)
3. Call or visit each property
4. Update status based on outcome:

- Interested → Appointment

- Not Interested → DNC

- No Answer → Not Home
5. Add detailed notes
```

Territory Review

```
1. Filter by specific status
2. Review conversion rates
3. Identify high-performing areas
4. Focus efforts on best territories
5. Re-visit "Not Home" properties
```

% Troubleshooting

Location Not Working

Problem: GPS tracking shows no location

Solutions:

- 1. Allow browser location permissions
- 2. Ensure HTTPS connection (required)
- 3. Check device location settings
- 4. Try different browser (Chrome recommended)

Markers Not Showing

Problem: No property markers on map

Solutions:

- 1. Verify leads have latitude/longitude
- 2. Check filter settings (may be filtering all)
- 3. Zoom out to see more area
- 4. Refresh the page

Slow Performance

Problem: Map is laggy or slow

Solutions:

- 1. Close other browser tabs
- Clear browser cache
- 3. Reduce filter to fewer properties
- 4. Use Road map instead of Satellite

Data Not Saving

Problem: Changes not persisting

Solutions

- 1. Check local Storage is enabled
- 2. Ensure sufficient storage space
- 3. Don't use private/incognito mode
- 4. Check browser console for errors

■ Understanding Analytics

Contact Rate

```
Contact Rate = (Contacted Properties / Total Properties) × 100

Example: 75 contacted / 150 total = 50% contact rate

Good: >40%

Excellent: >60%
```

Interest Rate

```
Interest Rate = (Interested / Contacted) × 100

Example: 30 interested / 75 contacted = 40% interest rate

Good: >30%
Excellent: >50%
```

Conversion Rate

```
Conversion Rate = (Sold / Contacted) × 100

Example: 10 sold / 75 contacted = 13.3% conversion rate

Good: >5%

Excellent: >10%
```
